

**POLYSLICK**  
**UHMW-PE ROD™**

Ultra High Molecular Weight Polyethylene Rod – PE 1000

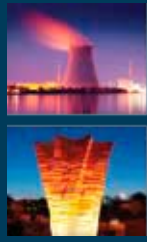

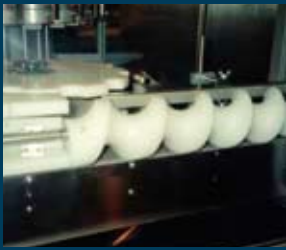

**APPLICATIONS**

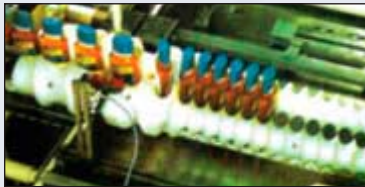

- |                    |                |              |
|--------------------|----------------|--------------|
| Gears              | Augers         | Rollers      |
| Spools             | Nozzles        | Bearings     |
| Wear Strips        | Wear Guides    | Bushings     |
| Machine Parts      | Shaft Sleeves  | Sprockets    |
| Bottling Equipment | Conveyor Parts | Change Parts |

Smooth as Extruded

## POLYSLICK UHMW-PE ROD™

### FEATURES

Moisture resistant  
 Chemical resistant  
 Stress crack resistant  
 Low coefficient of friction  
 Prevents steel degradation  
 Non toxic / Non hazardous

Easy to clean  
 Easily machined  
 High impact strength  
 High energy absorption  
 High abrasion resistance  
 Reduces machine noise

### COLORS

Natural\*  
 Black

\*FDA and USDA approved color. RoHs and REACH Compliant.

### SIZES

Ram Extruded  
 inch / mm

Diameter 0.25 - 10 / 6 - 250

Length 120 / 3050

### FINISH

Smooth as extruded

Note: Charge marks may be visible on surface  
 Other lengths, colors and formulations available upon request
